

Meeting Agenda

Date: 2015-05-14

Facilitator: Oscar Evertsson

Participants: Mats Högberg, Oscar Evertsson, Filip Hallqvist, Jesper Jaxing

Objectives

- The TagHandler doesn't work as it should

Reports

- Oscar and Mats has worked on the GUI. Mats implemented the search feature in the GUI, and Oscar has started to work on the tagging feature
- Jesper fixed email sorting and markdown editing
- Filip fixed support for fontawesome, for nice button icons

Discussion items

- We need a feature to refetch all mails from the server
- The sidebar need to be connected to the GUI and backend

Outcomes and assignments

- Mats will implement a feature to refetch all mails from the server
- Filip will write tests, and after that he will work with the sidebar
- Mats and Oscar will work with the TagHandler, and connect all GUI buttons to the backend
- Jesper will fix some sort of login window where you can register a custom account

Unsolved issues

- We have to work on the RAD and the SDD

Next meeting

2015-05-19 12.00-13.00
