Objectives

• Discuss how to move on with the project, and what tasks to delegate to who

Reports from previous meeting

• We've reviewed the sequence diagram, as well as the UML.
• We've figured out how to structure our folders and will move on to a more modular approach.
• We've got partly functional code for fetching emails.

Discussion items

• How to use "tags" and structure the emails we receive from the server.
• How to write the report.

Outcomes and assignments

• Mats and Jesper continues their work on getting incoming emails to work.
• Filip and Oscar will implement funcionality for tagging emails.
• Everyone will contribute to the report disposition.

Wrap up

Unresolved issues

• We're a little unsure about the project structure (I.E. folders and dependencies), but will look more into it.
